## PROFILE

Motivated and detail-oriented Computer Science student with a strong foundation in programming, algorithms, and software development. Experienced in designing and implementing applications using **Java, Python, and C++**, with additional exposure to web development and database management. Passionate about solving complex problems, learning new technologies, and developing efficient, user-centered solutions. Demonstrates excellent teamwork, analytical thinking, and communication skills through academic projects and collaborative development experiences

## SKILLS

Detail Oriented  
Team Player  
Leadership  
Problem Solving  
Time Management  
Adaptability

## EXPERIENCE

Mechanic | United States Army

### 2018-2023

Served as a skilled mechanic responsible for maintaining and repairing a variety of military vehicles and equipment to ensure operational efficiency and mission success. Applied strong analytical and troubleshooting skills to identify and resolve mechanical and technical issues under tight deadlines. Collaborated closely with team members and supervisors to coordinate maintenance schedules, manage parts inventory, and uphold strict safety and quality standards. Developed valuable transferable skills in leadership, teamwork, time management, and problem-solving while performing effectively in fast-paced, high-pressure environments. Demonstrated dependability, adaptability, and a strong work ethic in support of unit readiness and performance.

Cashier | Spinx , Columbia, SC

### 2024-2024

Provided friendly and efficient customer service in a fast-paced retail environment. Operated the cash register to process sales, handle payments, and maintain accurate transaction records. Assisted with inventory management, restocking, and maintaining a clean, organized store area. Demonstrated reliability, attention to detail, and strong communication skills while ensuring a positive experience for every customer. Developed valuable skills in **customer**

## EDUCATION

**University of South Carolina**  
(Columbia, SC)  
**2025-2028**  
**BS in Computer Science**

service, multitasking, and problem-solving through daily interactions and operational responsibilities.
